

Elastic Sand 1.0

Elastic Sand 1.5

Elastomeric Finishes

Elastic Swirl 1.5

Elastic Choice 0.75

DESCRIPTION:

- 100 percent acrylic-based elastomeric textured finish
- Dirt Pick-up Resistance (DPR) chemistry
- Highly flexible: can bridge pre-existing or existing hairline cracks
- Integrally colored with high quality pigments

USES:

Finishing coat for:

- EIFS, One Coat Stucco, and Scratch & Brown stucco
- New or existing stucco and concrete surfaces
- Renovation of old stucco and concrete walls
- Finishing of masonry walls in combination with any TeifsBase product or Teifs Stucco Level Coat

COMPOSITION:

- Binder base: 100 percent elastomeric polymer with surface-hardening property
- Aggregate: Pure crushed marble, rust-free
- Water-based: VOC-compliant
- Pigment base: Titanium dioxide
- Color: Teifs standard colors or tinted to desired custom color

TESTING:

- Environmental Durability: Passes ASTM G 23 resistance to accelerated weathering and ultraviolet.
- Resistance to wind-driven rain: (TT-C-555B): passes
- Mildew Testing: (ASTM D3273): No growth
- Vapor Permeability: Watervapor permeable; does not create a vapor barrier

100% ACRYLIC

Elastic Sand 1.0 Elastic Sand 1.5

Elastic Swirl 1.5 Elastic Choice 0.75

Elastomeric Finishes

COVERAGE:

Depending on the condition of the substrate and method of application, approximate coverages are:

Elastic Sand 1.0

Aggregate size: 1.0mm
150-165 sq. ft. (14-15 sq. m.) per pail

Elastic Sand 1.5

Aggregate size: 1.5mm
120-135 sq. ft. (11-12.5 sq. m.) per pail

Elastic Swirl 1.5

Aggregate size: 1.0mm
120-135 sq. ft. (11-12.5 sq. m.) per pail

Elastic Choice 0.75

60-150 sq. ft. (6-14 sq. m.) per pail
depending on texture

CONTAINER:

65 lb (29.5kg) net weight in plastic pails.

- Storage: Protect from sun and freezing at all times
 - Do not stack pails more than 3 pails high
- Shelf Life: One year if properly stored

DRYING TIME:

48 hours under normal conditions. High humidity and low temperatures extend drying time.

CLEANUP:

Water-soluble prior to drying. Clean tools and containers with water prior to drying.

SURFACE PREPARATION:

- Remove surface contaminants such as dust or dirt without damaging the substrate.
- For previously painted surfaces, all loose and chalking paint must be removed, and glossy surfaces dulled.
- New concrete and masonry must be clean and cured a minimum of 28 days.
- Check concrete surfaces for alkalinity and treat. Any form-release agents or bond breakers must be removed.
- Uneven concrete or masonry can be leveled with any TeifsBase product, Teifs Level Coat, or other suitable, compatible product.
- For interior drywall, prepare as for painting.
- For application of TeifsPrime or Sanded Primer, refer to the product data sheet.
- For additional options, contact ParexLahabra Technical Services Department.

MIXING:

- Use clean equipment for mixing and preparation.
- Stir to obtain a homogeneous consistency using a heavy-duty 1/2-in. (13mm) drill with a rust free paddle at 400-500 rpm. Avoid air entrainment.
- A small amount of clean, potable water may be added to aid workability. Do not exceed 8 oz. (1 cup) (.24 L) per full pail of finish. To avoid color and texture variations, add the same amount of water to each pail of finish.

APPLICATION:

- Read the entire label before using this product.
- Always maintain a wet edge and work to corners or joints. For best color consistency, use finish with the same batch number within a wall section. Keep container closed when not in use.
- Application: use a clean stainless steel trowel and apply a uniform coat the thickness of the largest aggregate size of the finish.
- Texturing: use a clean plastic float or stainless steel trowel, wipe frequently. Apply moderate pressure with consistent motion, rolling the large aggregates to obtain the desired texture.

LIMITATIONS:

- Ambient and surface temperature must be 40°F (4°C) or above during application and drying time. Supplemental heat and protection from precipitation must be provided as needed.
- Use only on surfaces that are sound, clean, dry, unpainted and free from any residue which may affect the ability of the finish to bond to the surface.
- Application in direct sunlight in hot weather may adversely affect aesthetics.
- Due to the composition of this product, minor pin holes may be noticeable in the cured finish.
